DPM PLATEMAKER SERVICE SPECIAL

Priced at only £395 - includes an Air & Chemical Filter!

25% discount on parts
fitted during the service!

Increase your ABDick Digital Platemaster's reliability and reduce the risk of downtime with an expert preventative maintenance visit.

Models: ABDick DPM 2508, 2340, 34, 34-HSC

Comprehensive Service Visit Includes:

- Run test images: check plates for anomalies
- Clean spinner mirror
- Remove activator and stabiliser racks; check "O" rings and bearings for wear
- Clean and polish stainless steel guides that contact plate material
- Check and lubricate main drive chain and sprockets
- Check all sensors and switches
- Check the plate length and centring
- Inspect knife assembly

Expert service is performed by Presstek Europe's factory trained technicians. Our aim is to maximise your uptime by keeping your systems running at peak performance.
