

# Zahara™ Eco-Kleen

Water-Based Plate Cleaning

## Fast, Easy and Reliable Cleaning of Presstek Zahara Plates

### Benefits:

- Compact design; small footprint
- Cost-effective, eco-friendly system
- Designed for easy use and low maintenance
- Water-saving, environmentally sustainable operation

### Features:

- Robust engineering, sturdy steel frame and PVC tank
- Closed system with 80-liter water recycle (no need for external water connection)
- Equipped with a three brush system—Oscillating brushes with adjustable pressure and soft touch technology for highly efficient cleaning
- User-friendly digital control panel for plate count, temperature, brush and transport speed setting
- Automatic start with plate reading sensor
- Plate thickness range: 0.15mm–0.30mm
